# How are You Expanding Your Ambulatory Surgical Center's Capabilities?

The Time to Optimize Your Surgical Center is Now.

If you could imagine an Ambulatory Surgical Center (ASC) that focuses on continuously providing top-notch patient care and outcomes, what would it look like?

Whether you are building a new ASC or expanding an existing one, you likely envision a caring environment designed thoughtfully with the right mix of clinically proven, reliable and versatile equipment to support your current cases, while allowing you to expand for the future –

**with a 25% projected growth of procedures done in ASCs by 2028<sup>1</sup>, your ASC needs to be ready to absorb that influx.**

1. Sg2, "Procedure Sites of the Future: Transitions and Growth Across HOPDs, ASCs," 2019

Outfitting your facility with innovative technology that meets your needs plus those of your staff and patients today while preparing for the future is essential to delivering the clinical excellence you desire, resulting in great surgical outcomes. As your practice grows, you'll need the right equipment that will help you increase efficiency as you take on more cases. The time to optimize equipment and technology is now.

## **LET HILLROM HELP.**

Our comprehensive portfolio of solutions enables peak procedural performance and connectivity to help you manage the rising complexity of having to do more with less. We can build, expand or equip your ASC with everything you need from pre-op to discharge, allowing you to standardize across the continuum of care.

# Comprehensive, Versatile, Scalable

With integrated solutions that work together seamlessly, we help you navigate the financial, operational and clinical needs of your outpatient center — flex for procedures and achieve workflow efficiency — so you can work more proficiently and confidently as you administer patient care.

# COMPREHENSIVE

Experience the total solution.

From the waiting room through pre-op and intra-op to post-op and beyond, our extensive portfolio of products, devices and services supports you with solutions built for flexibility, efficiency and safety. Our complete offering allows you to support your ASC's needs today, while providing the adaptability to grow your business, so you can enhance your patients' experience all the way to a successful outcome.

# VERSATILE

**Get the right equipment in the right room at the right time.**

Because surgery is the heart of healthcare, success starts with a robust, adaptable core of smart and versatile equipment. Our products support a wide range of surgical procedures and applications to help you stretch your investment and expand equipment capabilities. Designed to accommodate different room designs and new specialties, our equipment helps streamline room setup and turnover within your ASC so you can focus on your patients.

# SCALABLE

Keep your ASC running smoothly today as you build for tomorrow.

Whether you are expanding your current facility or opening a new ASC, you need solutions that can grow as your needs grow. We can help you standardize equipment that will flex as you scale up across specialties and settings. As a result, your center can support more cases and different types of procedures as you stay focused on enhancing clinical outcomes—for every patient, in every setting.

# Patient Well-Being

Our simple and flexible pre-operative products contribute to a calm, comforting environment that provides peace of mind for patients. With patient comfort taken care of, your staff is free to focus on preparing the patient for surgery.

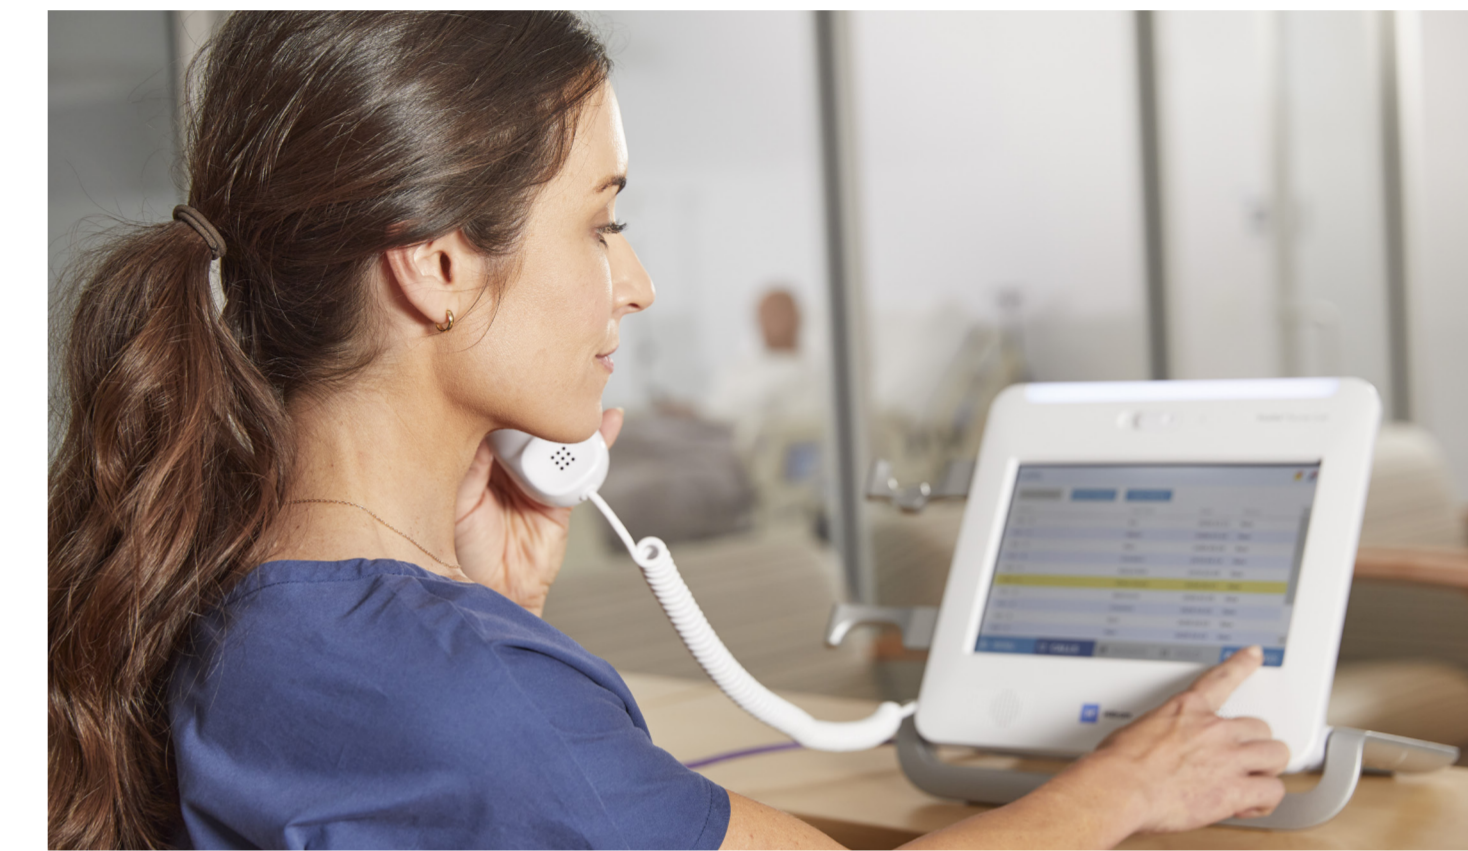

## VISITOR CHAIRS

These chairs offer comfort and durability with a modern design. With three width options to choose from, including bariatric guest chairs to support heavier users, these visitor chairs accommodate almost everyone. The open arm style composed of a steel frame, solid surface arm caps, and non-porous fabrics, provide ease of cleanability.

## TRANSPORT STRETCHER

Customizable to be as simple or versatile as you need, our transport stretcher accommodates all patient conditions and your needs in an uncertain environment.

## VOALTE® NURSE CALL

Sends detailed patient needs directly to your team, so they can provide quality care, faster. Automating your workflow and promoting a quiet environment helps your team deliver proactive care to keep patients safe.

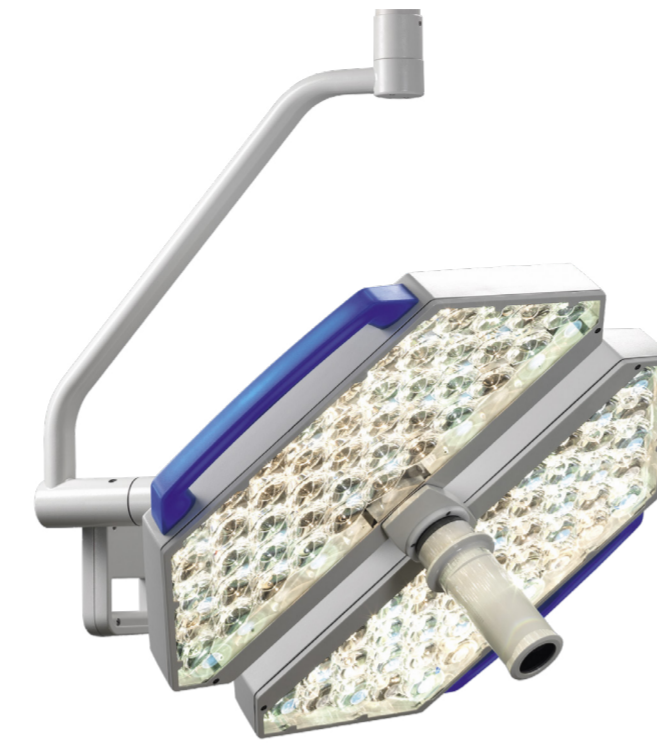

# Flexibility. Efficiency. Safety.

Start each procedure with confidence, knowing you have everything in place to help your team reach peak procedural performance and connectivity with surgical solutions that optimize surgical efficiency and maintain patient safety every time.

## TV HD CAMERA

High definition display of the surgical site, live stream operations and save video sequence functions ensure OR staff see every detail.

## TL5000 SURGICAL LIGHT

Easy-to-use LED light that adapts to surgical needs with adjustable color temperature feature.

## PST 300+ PRECISION SURGICAL TABLE

A sleek modular design, ergonomic handling and 360° imaging, this versatile, cost-effective table is easy to use and supports the volume and variety of procedures you face every day.

## PROCEDURAL ACCESSORY PACKAGES

Tailored for different specialties and procedures, including those performed in outpatient facilities, these packages are complete for surgeries from general, bariatrics and ENT to orthopedics, gynecology, urology, spine and neurosurgery.

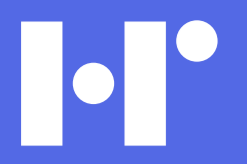

## HELION™ INTEGRATED SURGICAL SYSTEM

Comprehensive simplicity is at your fingertips with innovative features such as an easy-to-navigate user interface, single-touch image and video capture and zero-latency video routing. Now your surgical team can quickly access needed information without delays, improving workflow efficiency and patient safety.

## FCS 700 BOOM

Highly adaptable for efficient setup and easy reconfiguring of modules and services (even after installation). You can add the right components for any application and attach them at any height and on every side of the boom, no tools required.

# Supported Recovery.

After surgery, you'll need solutions that help you monitor patients as they rest before they go home. That's where equipment like smart beds, patient monitors and physical assessment instruments can really make an impact.

## ART OF CARE® OVERBED TABLES

A low-profile base design that accommodates most of today's hospital beds with the ability to adjust the table height. The U-base with steel column features wheels and an integrated rail on both sides to accommodate accessories. Seamless thermofoil table surface with spill guard edge confines spilled liquid for ease of cleaning.

## CLASSIC SLEEPER CHAIR

Converts from visitor seating into a generous sleep surface in seconds with minimal footprint. Two USB ports, optional LED light and optional swivel tray table provide a personal space for the guest.

## ART OF CARE® BEDSIDE CABINETS

Convenient and mobile storage within easy reach for medical, surgical or long-term care environments.

## CENTRELLA® SMART + BED

When patients need an extended recovery period, you need a bed that can be an extension of your care team. You need a smart+ bed that can help keep patients safe through contact-free continuous monitoring and comfortable through support surfaces that help deliver optimal wound prevention and healing.

# Hillrom Services

Discover all the ways Hillrom Services can support you — so you can support your ASC patients.

# CONSTRUCTION

## Building a Smarter Future.

It's never too early to start the conversation when you envision a new construction or expansion project. Our Construction Solutions team can help — no matter how big or small the project. From initial consulting to financial planning to modeling and design, we offer expert consultation, along with 2D and 3D planning of your ASC. Leverage our expert knowledge and experience today for the surgical solutions that will bring your vision to life.

A healthcare professional, likely a nurse or technician, wearing a blue surgical cap and safety glasses, looking down at a patient lying on a gurney. The background shows medical equipment and a clinical setting.

# Hillrom™ Financial Services

## Flexible Acquisition Solutions.

In this ever-changing economic environment, our Financial Services team of experts will work closely with you to acquire the equipment and technology you need for your outpatient facility. Our financing solutions provide the flexibility you want, so you can focus on quality patient care.

# SMARTCARE™ SERVICE PLANS

**Peace of Mind.**

Your patients rely on our equipment to help keep them safe and comfortable. And you can rely on us to keep it in top condition. Our SmartCare service plans provide reliable, proactive, and cost-effective ways to maintain your equipment. We'll make sure your equipment gets the proper service so you can make sure your patients get the proper care.

**Hillrom™**

# START BUILDING YOUR SMARTER FUTURE TODAY.

We're here to help you execute your vision and enable peak procedural performance and connectivity for your center's operational excellence through solutions built for flexibility, efficiency and safety. Equip your ASC today with Hillrom solutions.

## ABOUT HILLROM

Hillrom is a global medical technology leader whose 10,000 employees have a single purpose: enhancing outcomes for patients and their caregivers by advancing connected care. Around the world, our innovations touch over 7 million patients each day. They help enable earlier diagnosis and treatment, optimize surgical efficiency and accelerate patient recovery while simplifying clinical communication and shifting care closer to home. We make these outcomes possible through connected smart beds, patient lifts, patient assessment and monitoring technologies, caregiver collaboration tools, respiratory care devices, advanced operating room equipment and more, delivering actionable, real-time insights at the point of care.
